Dear Grandmama:

I haven't forgotton about sending you the letter for the Clerk of Circuit Court, but Mr. Todd our lawyer has been out of town on a case but will be back this week end so will get it written next week.

Charles, is back with us. He went to see our minister and then we both went to see him. He said he would also go to the A.A. A. meetings, they help some times. I didn't tell himm that I called you, so he doesn't know that you know, I surely do hope that things will go O. K. now. But his going to see our minister is a step in the right direction.

It has been raining here for the past week and is still cloudy. We had to start our fire last week and still have it going, but hope ir will warm up for a few more weeks.

Has it been cold down there? Margaret wanted to know if it ever ranined and was cold down at Grandmama's like it was here. Buddy & Margaret had their Flu shots, but they wouldn't give to me because I had a cold. How is your arm?

Well I am at work, so guess I had better get back at it. We all send love.

Love,

Jana
